

DINE *and* DISCOVER

March 10, 2009

Dear Christopher,

I wanted to take a moment to thank you for the extremely prompt and professional service that we have received from your organization, dine.To.

The set up was made easy, was completed prior to the expected time frame and your photographer, Ernesto did an outstanding job capturing the essence of our restaurant. The feedback we have received on the quality and ease of your site has been amazing.

I can't say enough about your call tracking. It has been an extremely useful tool for me in further developing the telephone skills of our team. Further, the fact that we can obtain geographical information among other things can certainly be a valuable tool when assessing other marketing initiatives for our location.

It would be premature of me to close without thanking you personally for your outstanding personal service and attention to our particular needs.

I look forward to a continued relationship with dine.To and yourself and would recommend your site to anyone looking to enhance and expand their client base and ultimately increase restaurant revenue.

Thank you for making it all possible.

Best Regards,
